	HOPE Foundation's
	Finolex Academy of Management And Technology, Ratnagiri
	Department of MCA

Course Code: MCAL34	Course Name: Distributed System and Cloud Computing Lab	
Class: SYMCA	Semester: II CBCGS 2 Yrs.	Academic Year: 2022-23
Roll No: 31	Name of Student: HAJISAB BASHIR MULLA	
Assignment/Experiment No: 02	Quiz Score:	6
Name of Assignment/Experiment: Remote Procedure Call		
Course Objective applicable: Understand the fundamental aspects of Remote Procedure Call.		
Course Outcome applicable: Implement programs using Remote Procedure Call.		

Details of Quiz:

Q. No.	Question	Correct Answer	Given Answer
1	Client stub resides in its own address space.	True	True
2	An _____ is a module which contains all of the functions necessary for the client to make remote procedure calls using the model of a traditional function call in a standalone application.	Client stub	Client stub
3	A remote procedure call is _____	inter-process communication	inter-process communication
4	To resolve the problem of data representation on different systems RPCs define _____.	machine independent representation of data	machine independent representation of data
5	In RPC, while a server is processing the call, the client is blocked _____	unless the client sends an asynchronous request to the server	unless the client sends an asynchronous request to the server
6	The local operating system on the server machine passes the incoming packets to the _____	server stub	server stub

Assignment/Experiment Evaluation:

Sr. No.	Parameters	Marks Obtained	Out of
1	Technical Understanding (Assessment based on Q and A through online quiz)	6	6
2	Neatness/Presentation	2	2
3	Punctuality	2	2
Date of Execution (DOE)		Total Marks Obtained	10	10
Date of Assessment (DOA)		Signature of Teacher
